## BASALT CONTINUOUS FILAMENT FIBERS

Date of Print: 6/10/11

Last revision: 19/11/08

<b>1. Identity and Manufacturer Information</b> Identity of the Product:  Identity of the Manufacturer:  Emergency Contact:	Basalt fibre components: yarns, rovings, chopped strands, fabrics, non-woven mats.  BASALTEX - FLOCART nv Zuidstraat 18 B-8560 Wevelgem, Belgium  Tel.: +32(0)56.420.662 Fax.: +32(0)56.424.234
<b>2. Composition / Chemical Description</b>	Textile products made of mineral continuous filament fibres with a nominal diameter >5µm. The products contain max 5% processing aids (e.g. paraffin, silane)
<b>3. Risks</b> Identification of the hazard: Health hazards: Short term hazard:  Long term hazard:  Environmental hazards :	N/A  Not likely to occur, basalt continuous filaments can be a mechanical irritant: irritation of the skin, eyes and respiratory tract.  There is no known health effect connected with long term use or contact with this product.  N/A
<b>4. Emergency and First Aid Procedures</b> Inhalation:  Skin contact:  Eye contact:  Ingestion:	No specific treatment is necessary as this material is not likely to be inhaled, unless the material is in dust form: see infra 8. Wash with soap and running water.  Immediately flush with plenty of water. Get medical attention if problem develops.  Ingestion of this material is unlikely. If it does occur, get medical attention.
<b>5. Fire Fighting Procedure</b> Suitable extinguishing media: Hazardous decomposition :	Not applicable. Product will not support combustion. None known.
<b>6. Accidental Material Release or Spillage</b> Personal protective equipment: Environmental protection:  Cleaning procedures:	See infra 8. Prevent spread of basalt fibre dust and avoid dust-generating conditions. Vacuum clean dust. If sweeping is necessary, use a dust suppressant
